1 - O.K.
0 - resubmit

	Grading	Data Entry
Date		
Start		
End		
Interrupt		
Total	40	

Assignment Package	Comments
☐ PSP0.1 Project Planning Summary	Entregado
☐ PIP Form	Completado con oportunidades
☐ Time Recording Log	Incluye todas las fases
☐ Defect Recording Log	Cada defecto con fase inyectada/removida y tiempo de fix.
☐ Source Program Listing for Programs 1 and 2	Fuentes App, Logic/Logic2, Input, Data, Media, DesvEst, MethodCounter, lineCounter, OutPut
☐ Test Results	Se incluye Programa2_ConteoLOC.txt y verificación cruzada con estándar de conteo.
☐ Size Counting Standard	R2 "Java Logical LOC Standard" finalizado y aplicado
☐ Coding Standard	R1 "Coding Standard (Java) — Program 2" alineado

Program and Test Results	Comments
☐ The program appears to be workable.	Compila y ejecuta
☐ All required tests have been run.	Conteo sobre el set de .java del proyecto
☐ The actual output is correct for each test.	Resultados consistentes con R2
☐ Source is compatible with coding standard.	Headers, JavaDoc, indentación y nombres conforme a R1.
☐ Test results are consistent with the counting standard.	Se verificó manualmente muestra contra reglas de R2.

Time Log	Comments
☐ Time data are entered for all process steps.	Todas las fases registradas.
☐ Process steps are sequenced appropriately.	Secuencia PSP estándar
☐ Time data are entered against the appropriate process step.	Actividades mapeadas a su fase.
☐ Interrupt time is tracked appropriately.	Interrupciones separadas del tiempo efectivo.
☐ Time data are complete and reasonable.	Magnitudes plausibles para el tamaño del programa.
☐ Times were recorded as the work was done.	Registro contemporáneo indicado.

Defect Log	Comments
☐ Every defect has all required data.	Fecha, tipo
☐ Defects were injected before removed.	Consistencia temporal y de fases.
☐ Every defect has a fix time.	Tiempos de corrección presentes.
☐ Defects injected in compile and test have fix numbers.	Vinculados a fixes registrados.
☐ Defects are adequately described.	Descripciones claras y específicas.
☐ Defect types are consistent with description.	Tipificación consistente con PSP.

Grading Checklist - PSP 0.1

☐	Defect types are consistent with phase injected.	Tipificación consistente con PSP.
☐	Defect types are assigned consistently.	Sin ambigüedades en categorías.

PIP Form		Comments
☐	<i>The PIP form is completed.</i>	<i>Lleno con acciones</i>
☐	<i>The entries show insight and thought.</i>	<i>Acciones específicas y medibles</i>

Grading Checklist - PSP 0.1

Planning Summary		Comments
☐	Planned total time has been entered correctly.	Tiempo planeado total registrado.
☐	<i>Planned and actual size data are entered correctly.</i>	<i>LOC planeadas vs reales alineadas con R2.</i>

Consistency Checks		Comments
☐	Defects removed are consistent with compile and test phase time and program size.	Proporción razonable.
☐	Total compile defect fix times are less than compile time.	Suma de fixes < tiempo de compilación.
☐	Total test defect fix times are less than test time.	Suma de fixes < tiempo de prueba.
☐	Defect dates & phases are consistent with the time log.	Fechas/fases coherentes.
☐	Planning summary is consistent with the time log.	Sin contradicciones.
☐	Planning summary is consistent with the defect log.	Sin contradicciones.

General		Comments
☐	Followed the defined process.	Flujo PSP aplicado end-to-end.
☐	Complete, consistent and accurate process data collected.	Paquete completo y consistente.
☐	The student did his or her own work.	Trabajo propio indicado.
